

RESULTS OF MATERIAL RECEIPT ACKNOWLEDGEMENT (MRA) REPORT REVIEW

- **Recommend general restructuring of the Summary Report to include:**
 - oo \$ value of all shipments
 - oo Count, \$ value, and Percent of “No MRA” shipments
 - oo Count, \$ value, and Percent of “Yes MRA” shipments
- **Recommend collection and display of data under the Service of the Ship To DODAAC NOT the Service of the requisitioning DODAAC**
 - oo EXCEPTION: If a DSS depot is the “ship to” DODAAC, data would be collected under Service of the requisitioning DODAAC
- **The “NO MRA Report for DVDs and Stock Shipments” is incorrect**
 - oo Current report is a breakout of the number of “qualifying” shipments by DVD and stock shipments
 - oo MILSTRAP requirement is a breakout of “non-responses” by DVD and stock shipment
 - oo Recommend two separate reports

RESULTS OF MATERIAL RECEIPT ACKNOWLEDGEMENT (MRA) REPORT REVIEW, Continued

- **Recommend development of AD HOC Query capability:**
 - oo by time frame versus monthly increments; e.g. 90 days, 120 days, etc.
 - oo by DODAAC
 - oo by DODAACs exceeding “X” number of Non-Responses
 - oo by DODAACs with a Non-Response rate exceeding “X” percent of their total
 - oo by ICP RIC
 - oo by Federal Supply Class or Group
 - oo by extended dollar value of shipment
 - ooo Delete all “Special Reports”
- **Recommend deletion of “MRA by Discrepancy Indicator Report”**
 - oo Report displayed by shipping depot . The new SDR report, currently under development, will provide this data based upon actual discrepancy type.
- **Other areas of concern:**
 - oo “Y” Series DODAACS and other Invalid DODAACs
 - oo CONUS versus OCONUS
